Toileting Policies and Facilities

At Hakeford Woods there will be access to at least one Composting Toilet. These have been built to a recommended design to ensure safety for both the users and the environment. These facilities have been constructed to enable users to use the toilet when necessary in a private and hygienic manner.

Although we have these facilities, we request that all participants use the toilet at home or school before arriving at Hakeford Woods.

If children need the toilet during the session, they will be accompanied by a (DBS checked) adult to the nearby composting toilet. After using the toilet, all individuals must wash their hands using the facilities provided to ensure hygiene.

Where possible only the group's supporting staff or the participant's accompanying parent/carer may assist children with toileting.
